SUMMARY

I'm a Full Stack Developer trained in the MERN stack (MongoDB, Express.js, React, and Node.js). I have good knowledge of backend development, APIs, and databases, and I'm eager to join a team to learn and grow.

EDUCATION

Qualification	Board/University	Yea
Diploma in Computer Science	MSBTE	2024
HSC	Maharashtra State Board	2020
SSC	Maharashtra State Board	2018

TECHNICAL SKILLS

Languages: JavaScript, Core java,

Frontend: HTML5, CSS3, React.js, Bootstrap, JQuery

Backend: Node.js, Express.js,

Database: MongoDB, MySQL

Tools & Platforms: GitHub, Postman, VS Code, Eclipse, intelij

PROJECTS

Music Player App

- GitHub: https://github.com/AbhishekGaikwad45/Music-player
- Implemented user authentication with JWT for secure login and registration
- Added features to add/remove songs from favourites and manage custom playlists**.**
- Used MongoDB for storing user profiles, playlists, and song details.

Attendance Management System

- Link: https://github.com/AbhishekGaikwad45/Attendence-Manegement-System
- Developed a full-stack web application for managing student attendance using the MERN stack**.**
- Implemented user authentication (JWT) for admin, teacher, and student roles with secure login.
- Built an interface to mark and update attendance daily with date-wise filtering.

Portfolio website:

- Link: https://portfolio-app1-z9m6.onrender.com/
- I'm building my personal portfolio using React**.**js to showcase my skills, projects, and resume. I'm also creating a Contact Us page using EmailJS, which allows users to send messages directly to my email without needing a backend.
- It includes a simple form with name, email, and message fields.
- Once submitted, EmailJS sends the message and shows a success or error alert.

CERTIFICATION:

- MERN Stack | Full Stack Java
